THE FINE ART OF COOKING

## **Worker** – straight to the point

Worker – the new cooking suite line for cooks and chefs that want to get straight to the point. Sets the tone in the kitchen. Excellent cost-benefit ratio. With the very latest fifth generation MENU SYSTEM induction technology. With **SLIDECONTROL** – the world's one and only. Control the heat by moving the pan.

**Worker** – straightforward, powerful and precise.

# Impressive benefits

## MENU SYSTEM induction technology

- Maximum power density per cm<sup>2</sup> at pan base (up to 36 watts)
- Patented **SLIDECONTROL** technology
- Pan type detection (material, size, power consumption properties)

- ..... Integrated cookware protection system using dynamic pan temperature control, among other methods
- ..... Full-coverage temperature monitoring
- ..... Control electronics with the latest processor technology
- ..... Control software that can be updated at any time
- ..... Self-diagnosis system for error detection and signalling
- ..... Automatic fan monitoring
- ..... Integrated BUS system for data communication
- ..... Digital, luminous multi-segment information display
- ..... Satisfies EMC requirements for domestic appliances
- ..... Control and power electronics resistant to power supply fluctuations

## **Worker** – flexible within standards

Worker – not only straight to the point, but also extremely flexible when it is most necessary. You have the choice. You plan your cooking suite individually within standard specifications. Joint-free cover of durable MENU SYSTEM sandwich construction. Flexible configuration of appliances and substructures of proven high quality.

**Worker** – ready whenever you need it. Ready wherever you need it.
